

# Sunday Bird Quiz

These 15 species are common  
somewhere in the lower 48 states

# Quiz directions

**For each bird, there is a series of four slides.**

- **Study the first one: if you can identify the bird, award yourself three points. Feel free to use your field guide.**
- **If you're not ready to ID the bird, go to slide number two (same bird, more showing.) If you can identify the bird, give yourself two points.**
- **If you're still not ready to ID the bird, look at the third slide. If you can identify the bird, give yourself one point.**
- **The fourth slide will reveal the bird's identity.**

**Bewick's  
Wren**

A flock of approximately 15 white birds with black wings is flying against a clear blue sky. The birds are scattered across the frame, with some in the foreground and others further back, creating a sense of depth. The text is overlaid on the lower portion of the image.

Thanks for participating in our virtual meeting.  
We hope you can join us in September for our  
annual meeting at Kenlake State Resort Park.
