

18 Kentucky Birds

Example – 2 photos, then
the answer for each bird

Mallard

Black Vulture

Yellow-crowned
Night-Heron

Wild Turkey

American Black Duck

Ruby-throated
Hummingbird

**Blackpoll
Warbler**

A photograph of a Pectoral Sandpiper standing in shallow water. The bird is shown in profile, facing right. It has a long, straight, dark bill and a dark eye. Its plumage is intricately patterned with brown, black, and white streaks and spots, particularly on its head and neck. The bird's legs are a yellowish-brown color. The water is calm, and the background is a soft, out-of-focus light blue-grey. The text "Pectoral Sandpiper" is overlaid on the right side of the image in a bold, dark brown font.

**Pectoral
Sandpiper**

Orchard
Oriole

Swainson's Warbler

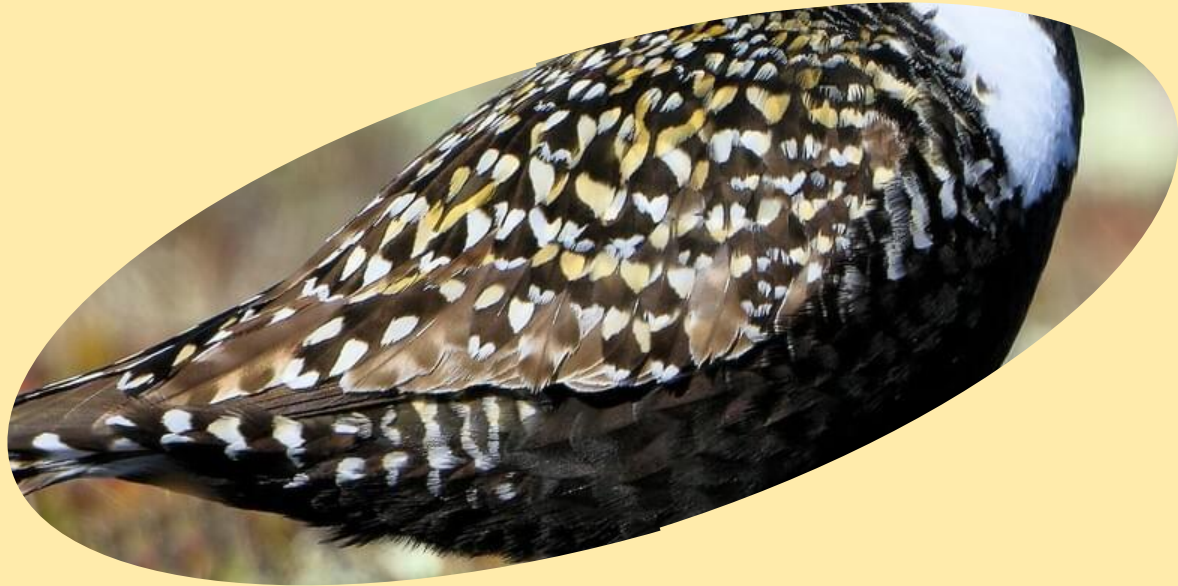

Rusty Blackbird

American Golden-Plover

A Broad-winged Hawk is perched on a dark, textured tree branch. The bird is facing left, with its head turned slightly towards the viewer. It has a brown head and back with a pattern of white and brown spots on its chest and belly. Its wings are dark brown with lighter spots. The tail is also dark brown with lighter spots. The background is a clear, bright blue sky. The image is framed by a light-colored border on the left and right sides.
