

KENTUCKY STATE LIST OF BIRDS
 Kentucky Bird Records Committee (KBRC)
 January 2023

The **KY** column estimates the difficulty of finding the species in a typical year in Kentucky. **Review List species have a KY code of 4 or 5 and are shown in bold.** Species not listed here, listed as hypothetical or KY 6 (extinct/extirpated), or observed at very atypical locations or dates also require review. Species with a KY code from 1-3 do not require KBRC review.

We encourage birders to quickly alert others of interesting observations, especially of species with a KY code of 3 or higher. We also encourage birders to submit species counts to eBird.

Based on [Sixty-third Supplement to the American Ornithological Society's Check-list of North American Birds, 7 July 2022](#).

Updates and additional information about birding in Kentucky available from the Kentucky Ornithological Society (birdky.org)
