

KENTUCKY STATE LIST OF BIRDS©
Kentucky Bird Records Committee (KBRC)
of the Kentucky Ornithological Society (KOS)
January 2025

The * column estimates the difficulty of finding the species in a typical year in Kentucky. Review List species having a * **code of 4 or 5** and are shown in **bold**. Species not listed here, those listed as hypothetical or KY 6 (extinct/extirpated), or those observed at very atypical locations or dates also require review. Species with a * code from 1-3 do not require KBRC review.

We encourage birders to quickly alert others of interesting observations, especially of species with a KY code of 3 or higher. We also encourage birders to submit species counts to eBird.

Based on the Sixty-sixth Supplement to the American Ornithological Society's Check-list of North American Birds, 1 July 2025, <https://doi.org/10.1093/ornithology/ukaf015>.

Updates and additional information about birding in Kentucky are available from the Kentucky Ornithological Society (birdky.org)
